

COMMUNITY ACTION MEETING

INVITATION

To All Aboriginal and Torres Strait Islanders

While recent research by the Kirby Institute (July 2019) showed Australia recorded the lowest number of HIV diagnoses among gay and bisexual men, since 2001, detection rates among our mob have gone up! Particularly in Aboriginal and Torres Strait Islander women / IV drug users.

You are invited to a community gathering to come together as mob and discuss new approaches to HIV sexual health awareness, education and advocacy, that is peer-led, self-determined, driven by us, for our community.

Messaging about HIV treatments and prevention are not reaching our communities. Your voice and your ideas are essential to combatting the rise in HIV detection rates in our mob

Your voice, your experience and your ideas are essential to combatting the rise in HIV detection rates in our mob.

TUESDAY 30 JULY 7.00PM
TUGGERANONG ARTS CENTRE
137 REED ST N, GREENWAY ACT
LIGHT REFRESHMENTS WILL BE
